

Was the content clearly explained and demonstrated? What could be improved?

Yes. Went over the SAS code a little fast (but I could have downloaded the file beforehand - I missed the first couple of mins)

How useful were the activities?

Very useful for my research project!

Describe at least one thing that could be improved and one thing that worked in today's workshop.

working with slightly more complex datasets.

Would you recommend today's workshop to others?

Yes, especially for people doing epi research.

Any feedback is greatly appreciated!!! Thank you!!

Was the content clearly explained and demonstrated? What could be improved?

Yes! this was great! I don't work with linear regression often, and it is always good to have a refresher course!  
quick.

How useful were the activities?

it was good to see through the syntax/programs in SAS but too bad our computer <sup>run</sup> wasn't working

Describe at least one thing that could be improved and one thing that worked in today's workshop.

~~Sometimes it was~~ No, this was great, liked the interactive and laid back atmosphere, checked to make sure we were on track  
- I did get a little confused on the Git/GitHub story → but I'll look at myself!

Was the content clearly explained and demonstrated? What could be improved?

It was very good. simple & applicable tricks.

How useful were the activities?

We didn't have chance to do it, but  
I will use your files for the future  
as reference.

Describe at least one thing that could be improved and one thing that worked in today's workshop.

→ thing to improve: I should have brought a laptop to try it out.  
→ thing that worked: everything!

Would you recommend today's workshop to others?

Yes.
