Was the content clearly explained and demonstrated? What can be improved?

Yes. Going a little sha slower.

How useful were the activities?

Very useful. This was helpful.

Describe at least one thing that could be improved and one thing that worked in today's workshop.

More examples & analogies can help get the point across across.

Would you recommend today's workshop to others?

Yes.

Any feedback is greatly appreciated!!! Thank you!!

Was the content clearly explained and demonstrated? What can be improved? Yes but maybe having two screens one with codes the other with analysis would help.

How useful were the activities?

the hands on activities were very helpful. but the didactic part was not as useful some but it was were done.

Describe at least one thing that could be improved and one thing that worked in today's workshop.

⇒ writing codes along with the audience would well.
⇒ perhaps having handouts on the codes would help with the didactic part.

Would you recommend today's workshop to others? yes, for sure!

Any feedback is greatly appreciated!!! Thank you!!

Was the content clearly explained and demonstrated? What can be improved?

How useful were the activities?

very useful

Describe at least one thing that could be improved and one thing that worked in today's workshop.

including loops from the beginning

Would you recommend today's workshop to others?

yes

Any feedback is greatly appreciated!!! Thank you!!

Was the content clearly explained and demonstrated? What could be improved?

~~XXXXXXXXXXXXXX~~ Yes, I thought the content was clearly explained - even with limited SAS knowledge, I was able to follow along. Maybe showing step by step and typing some of the code too during presentation may make it even easier to follow along.

How useful were the activities?

Very, it was good to see it done but would have been better if there was internet connection so that everyone can try it together.

Describe at least one thing that could be improved and one thing that worked in today's workshop.

WORKED - showing multiple examples on the same concept made it easier to grasp
⊕ liked the small group workshop — if more people sign up, it maybe more useful keeping the workshops in small groups

IMPROVE - Maybe double check the codes for errors prior to presenting. OR have slides showing common mistakes people make & know how to fix it step by step ⟶ Have worksheets! (If not too much of a hassle)

Would you recommend today's workshop to others?

YES!

Any feedback is greatly appreciated!!! Thank you!!
